

Position: Engineer Instrumentation
Division: Sugar Projects
Location: Ahmednagar
Experience: 6-8 years
Qualification: B.E/B.Tech (Instrumentation) or Diploma in Instrumentation

Established in 1975, the Shrijee Group is a privately held manufacturing company. We offer a wide range of products and services such as turnkey sugar factories, towers and substation structures, agricultural equipment, heavy fabrication, sundry galvanizing, wind powered exhaust fans and engineering spares.

We have more than 175 people in our team, including 45 engineers and eleven MBAs. In addition to these, at any given time, we usually have 200-300 people working on our sites. We also have representatives in Vietnam, Thailand, Philippines, Iran, Syria and Ecuador.

We are looking for an Engineer Instrumentation for our Ahmednagar factory. The Engineer Instrumentation will report to the General Manager Technical.

Responsibilities include:

1. To prepare the instrumentation project as per the process requirement
2. To select the appropriate instruments as per the process application
3. To execute the work as per predetermined project applications
4. To take the overall responsibility of the project for the successful completion under the guidance of the GM.Tech.

We are looking for:

1. B.E/B.Tech in Instrumentation with 6-8years experience (preferably in sugar process automation) or Diploma in Instrumentation with 10-12 years experience in process automation preferably in sugar process automation.
2. Openness towards new technology.

Salary offered will be competitive. We offer a professional work environment. Please see our website for details about us: www.shrijee.com. If interested, please send resume and cover letter to:
