SHRIJEE ENGINEERING

Spares Division

Introduction to Shrijee Group

Established in 1975, the Shrijee Group is a privately held manufacturing company. We offer a wide range of products and services such as turnkey sugar factories, towers and substation structures, agricultural equipment, heavy fabrication, sundry galvanizing, wind powered exhaust fans and engineering spares.

We have more than 175 people in our team, including 35 engineers and six MBAs. In addition to these, at any given time, we usually have 200-300 people working on our sites. We also have representatives in Vietnam, Thailand, Philippines, Iran, Syria and Ecuador.

Engineering Spares Division

We are the one stop shop for all your engineering hardware and spares requirement.

We can supply all spares/engineering items required for your boilers, cane crushing mills, centrifugal stations, boiling house and bagging sections.

For more than thirty years Shrijee has successfully executed large scale sugar boiling-house projects all over the world. This has enabled us to establish strong business relationships with India's finest hardware suppliers. Due to our long association with these suppliers, Shrijee is able to procure engineering goods at rates that are significantly below the prevailing market prices. We would like to share this heavy discount with you.

Shrijee is recognized as the single source supplier by many leading companies in Sri Lanka, Vietnam, Thailand, Bangkok, China, Syria, Uganda, Fiji and many other countries.

In recognition of our excellence in our export business as well as our high customer satisfaction, the Government of India has accorded us with the prestigious "Export House" status. In January 2009, we won the EEPC India award for our export performance.

Shrijee has received "High Performance Capability" and "High Financial Strength" ratings from D&B in May 2008. Our D&B D-U-N-S number is 65-034-5940.
